

SEATTLE CELL SCIENCE SYMPOSIUM

December 13, 2019
9:00am-5:00pm

Allen Institute
615 Westlake Avenue N
Seattle, WA 98109

Join us for the fourth annual Seattle Cell Science Symposium, a full-day event showcasing research in the Seattle-area cell biology community, hosted by the Allen Institute for Cell Science. This symposium is an event for scientists in our region to share current work through presentations, lightning talks and poster sessions.

Event highlights include:

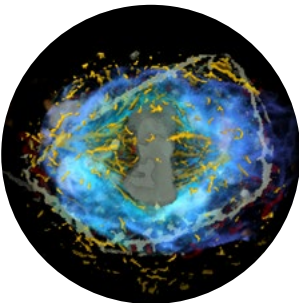

- Presentations from researchers in the Seattle area
- Research updates from the Allen Institute for Cell Science
- Poster session and networking reception

Symposium speakers:

- Kristi Anseth, Ph.D., University of Colorado, Boulder
- Cole DeForest, Ph.D., University of Washington
- Barry Gumbiner, Ph.D., Seattle Children's Research Institute
- Steve Henikoff, Ph.D., Fred Hutch Cancer Research Center
- Claudia Moreno, Ph.D., University of Washington
- Alex Paredez, Ph.D., University of Washington
- Suzie Pun, Ph.D., University of Washington
- Julie Theriot, Ph.D., University of Washington & Allen Institute for Cell Science
- Barbara Wakimoto, University of Washington

Call for posters:

- Poster proposal submissions are due by November 22, 2019.
- Selected poster presenters will have the opportunity to give a one-slide lightning talk prior to the poster session.
