Biolmage Informatics 2019

Co-hosted by:

The annual Biolmage Informatics international meeting will be held October 2-4, 2019 in Seattle. Hosted by the Allen Institute for Brain Science and Allen Institute for Cell Science, this meeting brings together more than 200 computational scientists, researchers and students in the biomedical imaging field.

A goal of this year's meeting is to bring the community of computational scientists together to analyze the challenges in biomedical computing and explore synergies between the institutes and the community.

This 2.5-day conference will include keynote speakers, presentations, software demos and poster sessions. View more information at alleninstitute.org/bioimage-informatics.
